

DUCHESNE-STRAWBERRY RIVER DISTRIBUTION SYSTEM

1958 ASSESSMENT

** \$ 6,100.00 **

BASIS OF ASSESSMENT

The minutes of the 1958 Annual Water User's Meeting stipulate that the State Engineer is to assess the listed water user's at such a rate as will produce \$ 6,100.00.

CALCULATION OF ASSESSMENT

(Note: Based upon a one-year delivery of water as reported by the Commissioner during the 1957 season.)

Total water reported delivered to the listed water user's by the Commissioner was: 263,955 Acre-Feet.

\$ 6,100.00 divided by 263,955.00 A/Ft. equals \$ 0.02311 cost per one-acre foot of water for each water user's pro-rata share of the 1958 assessment.

PROOF

\$0.02311 times 263,955.00 Acre-Feet of Water equals \$6,100.00.
